

A SINGLE SOURCE DRIVING EVERY DECISION

INFRASTRUCTURE PLATFORM

Carma is the world's first Network & Digital Infrastructure (NDI) commercial and operational platform, pre-integrated across dozens of functions, roles, and departments, and is built on Microsoft's globally scalable and secure cloud.

Consolidate the Sales, Ordering, CRM, OSS, BSS, DCIM, Field, Service Delivery, Service Assurance, Workflow, Ticketing, Meet-Me-Room, Invoicing, Dashboards, and Customer-facing Portal functions into a single platform. One license brings the most capable, ubiquitous, and scalable platform to your organization in the first true SaaS offering that has been tailored for telecom verticals and enterprise management.

Everyone sees the same data, regardless of their departmental perspective, from the same source of information driving every decision across the organization.
